

Plan 204: Social survey and analysis

Batch Name	Project Title
00 batch	Report on the Environmental improvement of Polashi staff quarter
	Report on improving neighborhood facilities in BUET staff quarter
	Upgrading the environmental condition of staff quarter
01 batch	Environmental aspects of Azad staff quarter
	Impact of Jamuna Bridge on regional development
02 batch	Environmental condition on slum areas in Dhaka City
	A questionnaire survey on the slum area of Dhaka city
	A glance on the living condition of slum dwellers: a case study of a selected area of Dhaka
03 batch	Analysis the satisfaction level of household utility services- a case study of North Basabo
	Problem of utility services of old Dhaka: a case study of Shankharibazar
	Analysis of living condition of garments workers- a case study of two garments industries of Mirpur
	Problems and potentialities of outdoor recreational facilities: a case study of Azimpur area
04 batch	Medical services for in-patients of Government Hospitals (a case study of DMCH)
	Life style of the residents of Old care center
	Cyber cafes in Dhaka: users and using pattern of these cafes: case study: Nilkhet and Dhanmondi
	Socio economics status and working environment of the canteen-boys: a case study of BUET, DMC & DU cafeterias
05 batch	Coping mechanism of ultra poor migrants in Dhaka City
06 batch	Assessment of the environmental condition of BUET staff quarter opposite to Ahsanullah Hall
07 batch	A study of land use and socio-economic profile of the area adjacent to BDR Headquarter

Plan 208: Presentation & Communication Techniques Studio

Batch Name	Project Title
00 batch	Pedestrianization of BUET
02 batch	A review report on the thesis: sustainable household solid waste management through recycling: a study in Dhaka city

Plan 312: Urban Planning Studio

Batch Name	Project Title
95 batch	Development plan for nilkhet-babupura-elephant road area
97 batch	Planning of Heritage sites of Dhaka
	Redevelopment of Mohakhali bus terminal
98 batch	Proposed land use plan for CBD purbachal
	Study on possible land uses and planning policies for existing site of fishmarket in Karwan bazaar area
	City centre development for Purbachal new town

	Town centre design
	Improvement plan for Motijheel commercial area
99 batch	Redevelopment of central Jail area
	Area improvement of old Dhaka: a case study of ward 70
00 batch	Neighbourhood planning: study area purbachal new town
	Study on ward no 68 of old Dhaka
	Study on salient issues and problems of Tejgoan industrial area
01 batch	A study on conservation potentials of Shankhari Bazar area
	Land use planning of low lying area adjacent to Sonargaon hotel complex
	A study on economic and physical issues on kawran bazar area
02 batch	Changing urban fabric of Dhaka city: study area Siddeshwari
	Proposed land use redevelopment plan for Hazaribagh tannery area
	Recreational facilities in Uttara model town: study area sector no: 07
03 batch	Synopsis of sustainable development
	A Conceptual planning approach to urban community development (a case study Uttara 3rd phase)
	Problems and potentialities of the study area
	Locational opportunities and constraints of the site case study of Uttara 3rd phase
	Vision of design new community and urbanization growth of Dhaka city
	State of spontaneous strip commercialization in Dhaka City (a case study of Kakrail road)
	State of spontaneous strip commercialization in Dhaka City (a case study of Dhanmondi Satmasjid road)
	State of spontaneous strip commercialization in Dhaka City (a case study of Kamal Ataturk avenue, Banani)
04 batch	A Study on Kitchen markets of Dhaka city: a case of Dhupkhola and Gulshan kitchen markets
	A Study on Kitchen markets of Dhaka city: a case study on kaptan Bazar & Khilgaon railway market
	On-site slum upgrading program: a study on Duarepara Bastee, Mirpur
	On-site slum upgrading program: a case study of the Jelepara slum, company ghat, Hazaribag, Dhaka
	On-site slum ... Bizli Mohalla Basti
	On-site slum... Bilal Khan Bastee
	On site slum upgrading program: a case study of Kallyanpur pora bostee
05 batch	Conservation within historic sites, study area: Lalbagh Fort and Ahsan Manzil
	Redevelopment of ward no 60
07 batch	A study on development pattern of ward-45 (Mohammadpur)
	Conceptual planning proposal for the area of Adamjee jute mill

Plan 332: Regional Planning studio

Batch Name	Project Title
95 batch	Analysis: gross regional product of Bangladesh
	Regionalizaion of Bangladesh based on industrial structure analysis and location quotient
	Regionalizaion growth pattern of Bangladesh and andlysis of industrial structure
	Regionalisation based on sectoral contribution of different districts of Bangladesh
96 batch	An approach towards possible locations and potentials of compact township: a case study of Keraniganj Thana
	Compact township-an approach to rural development
97 batch	Regional growth analysis by shift share component
	Regional analysis using LQ method
	Regional economic activities employing the LQ method
	Analysis of growth pattern with shift share component method
	Industrial structural analysis by shift-share component
	Shift-share component analysis of different sectors in Rajshahi and Dinajpur regions
98 batch	Regional growth analysis based on shift-share analysis and policy formulation for less developed region
	Regional growth analysis based on industrial structure approach: a case study of three districts (Jessore, Kushtia & Faridpur)
	Regional growth analysis on the basis of shift-share component: a case study of Barisal, Khulna & Patuakhali
	Delineation of catchment areas of urban centres
	Urbanization level in different regions of Bangladesh
	Urbanization pattern in Bangladesh on the basis of location quotient
	Planning for regional development: a case study of Pirganj upazila of Rangpur District
	Planning for regional development: a case study of Nagakanda upazila of Faridpur Zilla
	Planning for regional development: a case study of Satnakanía upazilla of chittagong district
	Planning for regional development: a case study of Sarriakandi Thana of Bogra Zila
99 batch	Identification of required facilities in Mirsarai Thana
	Identification of required facilities in Kishoreganj Thana
	Identification of required facilities in Parbatipur Thana
	Identification of requirements of socio-economic infrastructures
	Threshold analysis of different socio-economic infrastructure
	Urbanization level in different districts of Bangladesh
	Urbanization level of different regions of Bangladesh
	Identification of required facilities in Mirsarai Thana
	Regional analysis of Barisal District
	Dinajpur: a regional analysis
	Rangpur: a regional analysis
	Development study of all Districts in Bangladesh
	Maps showing to separate homogenous Districts in Bangladesh

00 batch	Identification of required facility in Rajapur Thana
	Identification of required facility in Kahaloo Thana
	Identification of required facility of Goalanda Thana
	Identification of required facilities in habiganj Thana
	Identification of required facilities of Kaliganj Thana, District: Satkhira
	Identification of required facilities of Araihasar Thana (Zila Narayanganj)
	Choropleth mapping
	Regional growth analysis on the basis of the shift-share component
01 batch	Regional growth analysis on the basis of shift-share components
	Regionalisation based on selected criteria using composite index method
	Regionalisation based on selected criteria
	Variable: Zillawise percentage of urban population in Bangladesh
	Variable: District wise per capita GDP of Bangladesh at current price
	Variable: District wise literacy rate (7years+) in Bangladesh
	Delineation of regions based on irrigated area as percentage of net cultivated area of all districts in Bangladesh
	Delineation of regions based on crude birth rate (per thousand population) of all districts in Bangladesh
	Delineation of regions based on population density (per sq.km.) of all districts in Bangladesh
02 batch	Pattern of urbanization in Bangladesh
	Spatial Distribution of urbanization in Bangladesh
	Modeling exercise with traditional four- step model using a simplified transport network
03 batch	Analysis of regional disparity in Bangladesh for selected variables
	Analysis of Regional disparity of Bangladesh on the basis of selected criteria
	Assignment on Comparison of different variables of parent districts with its neighbouring districts
	Examining the clustering pattern among different districts
	Regional map of Bangladesh on the basis of some selected criteria
04 batch	Regionalisation of Bangladesh (industrial sector)
	Regionalisation of Bangladesh
	Regionalisation of Bangladesh in respect of industrial variables
	Regionalisation of Bangladesh in respect of location quotient method
	Regionalisation of Bangladesh on the basis of shift-share analysis
	Regionalisation of two divisions (Rajshahi & Khulna)
	Agricultural regionalization of three divisions (Chittagong, Khulna & Barisal)
	Compact township as the conceptual planning approach to improve agricultural sector in Bangladesh
	Eco park and its proposed design for Bangladesh
	Determination of level of development in Dhaka and Barisal division by location quotient method
	Delineation of regions in Bangladesh (overall development)
	Determination of location quotient of agricultural, industrial value added 7 cropping intensity
	Determination of location quotient for the Districts of Chittagong & Sylhet Division
	Analysis of regional growth depending on the shift share components
	Industrial structure analysis of Bangladesh based on shift share component
Shift-share analysis of Dhaka Division	

	Shift-share analysis of GDP
05 batch	Analysis of spatial dependence (based on percentage of industry worker)
	Application of regional techniques for development of Rajshahai District
	Regional analysis tools
	Measure of regional disparity based on Gini index
	An analysis of regional disparity in Bangladesh on the basis of infant mortality rate
	Spatial dependence of various aspects of quality of service of Bangladesh
	Spatial dependence among districts of Bangladesh

Plan 342: Transportation Planning Workshop

Batch Name	Project Title
95 batch	Road hierarchy problem: a case study of Mirpur road
	Inter section problem: a case study of Mohakhali intersection
96 batch	Traffic management: a case study of the roads in the vicinity of new market area
	Parking survey of DCC market at Gulshan-1
	Road cross section elements: a case study of elephant road
97 batch	Transportation planning for non-motorized vehicles of Gulshan area
	Design of traffic signals at Shahbagh node
98 batch	Bus terminal problem: a case study of Gulistan-Fulbaria bus terminal
	Study of public bus services: a case study of Dhaka city
	Traffic volume study: a case study of Shahbag intersection
99 batch	Parking characteristics- new market area
	Impact of policy measures on urban transportation system: a case study of Mirpur road
00 batch	Evaluation of transport network performance of a small sized town: a case study of Narayanganj Pourashava
	A study of parking characteristics in new market area
01 batch	Impact of road side commercialization on transportation performance: case study, satmasjid road, Dhanmondi
	Parking demand and supply analysis of major activity centers along the Satmasjid road
02 batch	Modeling exercise with traditional four-step model using a simplified transport network
	Performance impact of transportation policy shift on mirpur road: a comparative analysis
03 batch	An Assessment on public transportation system of Dhaka City: case study route no. 12 B (farmgate to Bangladesh Bank)
04 batch	Introducing bus rapid transit in Bangladesh: case study, Shishumel to panthpath intersection
	Design and management based approach towards: BRT system development in Dhaka City
05 batch	Passenger Travel between Dhaka and Chittagong: A Comparison between Bus service and Train Service
	Pedestrianization in Palashi – New Market Area

Plan 402: Project planning Studio

Batch Name	Project Title
96 batch	Technical proposal for study and preparation of land use recommendation and plan on both sides of Tongi-Ashulia road to develop the road sides as a zone for recreation and tourism conserving the natural environment
	Financial proposal for consultancy services for study and preparation of land use recommendation and plan on both side of the Tongi-Ashulia road to develop the road on both sides as zone for recreation and tourism conserving the natural environment
97 batch	Technical proposal for consulting services on Dhaka urban transport project phase II
	Technical report for improving the traffic management system in the Nilkhet-Babupura area
98 batch	Financial proposal: consultancy services for study and preparation of redevelopment plan for Nolkhet-Bapupura-Elephant road area
99 batch	Technical proposal: consultancy services for preparation of detailed area plan (DAP) for Dhaka Metropolitan development planning (DMDP) area
	Preparation of financial proposal
00 batch	Terms of reference (TOR) for water supply system of Purbachal new town
	Terms of reference (TOR) for consultancy services for strengthening old District headquarters through planned development
	Terms of reference for conservation of Saint Martine Island
	Cost benefit analysis of redevelopment of central Jail area
	Project selection and evaluation procedure of DFID
	Project evaluation procedure of international developing agencies: a case study on ADB
	Project evaluation procedure of international developing agencies: a case study on World Bank
	Project evaluation procedure of international developing agencies: a case study on CARE
	Project evaluation procedure of international developing agencies: a case study on UNICEF
	Project evaluation procedure of international developing agencies: a case study on UNDP
	Project evaluation procedure of international developing agencies: a case study of JICA
	Redevelopment of Dhaka central Jail area (Technical and financial proposal)
	01 batch
Terms of reference (TOR) for urban renewal of Shankhari Bazar area	
Project plannign and evaluation procedure of Government Organization Power Development Board (PDB)	
Project plannign and evaluation procedure of Government Organization (Bangladesh Rural Development Board)	
Project plannign and evaluation procedure of Government Organization Local Government Engineering Department (LGED)	
Project plannign and evaluation procedure of Government Organization (PWD)	
Project plannign and evaluation procedure of Government Organization : Bangladesh Water Development Board (PWDB)	
Project plannign and evaluation procedure of Government Organizations: a	

	case study on Dhaka Water Supply and Sewerage Authority (DWASA)
	Financial proposal for consultancy services of Paurashova transport improvement planning
	Financial proposal for environmental planning of a small town (water supply, drainage, waste disposal, and sanitation)
	Technical proposal for urban renewal of Shankhari Bazar area
	Technical proposal for growth centre improvement in Palash Upazilla under Narsingdi District
	Work program and manning schedule for Paurashova transport improvement planning
	Work program and manning schedule for relocation of tannery industries from Hazaribagh to Savar
	Working program and manning schedule for regional planning of an Upazilla: a case study of Baliakandi Upazilla
	Development of housing for garment workers
02 batch	Financial proposal for developing/planning saint martin island as a tourist zone/town (3 copies)
	Technical proposal for planning/developing of St Martin island as a tourist town/zone (4 copies)
	Concepts of terms of reference (TOR) (8 copies)
	Terms of reference (TOR): a brief discussion (2 copies)
04 batch	A study on financial feasibility of proposed BRT system in Dhaka City from Gabtali to Saidabad (5 copies)
	Terms of reference for the implementation of BRT system in Dhaka City (2 copies)

Plan 412: Participatory Local Level Planning

Batch Name	Project Title
98 batch	Decentralization of administration and services of Dhaka City Corporation: a case study of ward no.(7, 49, 57, 62, 68) (5 copies)
	Participatory approach in local level conservation and development planning: a case study of ward (40, 49, 68) (3 copies)
01 batch	Accessibility problem of unplanned residential area- a case study of Kalabagab area
	Living environment of Garment workers "a case study of Mohammadpur Beribadh slum"
	Housing problem of Geneva camp
	A study on conservation potentials of Shankhari Bazar area
	Reduction of congestion of unplanned area through community participation
	Land readjustment: case study Shahid nagar residential area
	Wetlan management and conservation at Ashulia
	Participatory plannign in slum areas
02 batch	Improvement of income generating activities of low income people in Dhaka city through community participation: a case study of Master Bari- Shaheed nagar
	Lower income community development by generation of income activities through utilization of potential resources by means of peoples participation (income-expenditure matrix, venn diagram, mobility mapping)
	Problem identification and ranking, cause-effect analysis and preparation of

	dream map of the local people of the site "Master Bari"
	Improvement of living environment of low-income people by income generating activity : a participatory planning approach
	Community development by flourishing home based industries through participatory approaches: a case study of Kurmitola Bihari camp, Mirpur
	Improving the living condition of a community by flourishing the existing home based industries
	Preparation of social and resource map by the local people of the site-Master Bari
	Preparation of historical profile, seasonal diagram and daily activity schedule of the local people of the site
03 batch	Citizen report card: a study on some selected wards of Dhaka City Corporation (6 copies)
04 batch	Scope of improvement of living condition & occupational status of a Brazier community
	Scope of improvement of living condition & occupational status of a fisherman community
	Scope of improvement of living condition and occupational status of a potter community
	Scope of improvement of living condition and occupational status of a Jamdani weavers' community: case study-Kazipar, Narayanganj)
05 batch	Problem identification and community solution through participatory local level planning: a case study ward no. 60 RND area and ward no. 62 Rasul Bag (2 copies)
	Problem identification and solution generation at east Nakhalpara Mahalla (ward no. 34)
	Problem identification and solution generation through people's participation: case study ward no. 63
	Problem identification and solution generation through people's participation: case study ward no. 64
	Apply PRA tools in urban areas: case study ward no. 35 (Shantibag)
	Public participation in local level planning: case study ward no. 50
	Participatory approach to local level development: ward no. 68
	Participatory local level planning in ward-52

Plan 431: Rural planning Studio

Batch Name	Project title
96 batch	Policies and strategies for participatory poultry development
	Policies and strategies for participatory agro based industry development
	Planning of a rural based veterinary hospital
	Rural based subsidiary industries
	Policies and strategies for participatory fisheries development
	Policies and strategies for participatory cattle development
	Policies and strategies for participatory rural infrastructure development
	Policies and strategies for participatory rural agricultural development
99 batch	Empowering women for strengthening rural development
	Improving the quality of life of the textile workers at the grassroots level
	Vision of educational development for developed rural Bangladesh by 2015
	Rural poverty reduction by increasing household assets base

	Community based rural land resource management
	Services and facilities in human resource development for landless and assetless people
	Impact of modern agricultural practices on rural ecology
	Impact of transport facilities on socio-economic condition of rural areas
00 batch	Vision of rural industrialization for developed rural Bangladesh by 2015
01 batch	Compact township as the conceptual planning approach to rural settlement development in Bangladesh
02 batch	Role of remittance in rural development
03 batch	A study on Alternative sources of safe drinking water for the arsenic affected area of Kanchanpur Union of Tangail District
	Scope of non-farm income generation for poverty alleviation and self-reliance
	Patterns of livelihood and quality of life of rural families: a case study of Kanchanpur Union of Basail, Tangail
	Role of PRSP in real life poverty alleviation through income and employment generation: a case study of Kanchanpur Union
	Comprehensive disaster mitigation measures for rural Bangladesh: a case study of Kanchanpur Union
	Patterns of income and employment and opportunities for its enhancement: a case study of Kanchanpur Union
	Optimum utilization of local rural resources for sustainable development
	Decentralization of export oriented industries in rural areas: a case study of Kanchanpur Union
	Impact of microcredit on poverty alleviation: a case study of Kanchanpur Union
	Safety of rural Housing against flood and wind-storm: a case study of Kanchanpur Union
	Role of growth centres and rural markets for the dynamism of rural life: a case study of Kanchanpur Union
	Impact of safe drinking water and hygienic toilets on longevity of rural people
04 batch	Literature review on remittance by 04 batch
05 batch	Assignment on Home district with map presentation
	Assignment on Distribution Pattern of Rural Settlement
	A Study on changes in livelihood capitals in NGO/Co-operative operated villages (partial study only questionnaire development)
	Assignment on Computation of Human Development Index (HDI)
	A Study on Divisional Analysis of Human Development Index (HDI) in respect with Distribution Pattern of Educational Institutions
